

**Why Is Erosion Control Important?** Without erosion control, your topsoil may lose its ability to hold nutrients, regulate water flow, and combat pollutants. In addition to affecting the ecosystem of nearby wildlife, residential properties and transportation systems can suffer long term damage.

Material	100% Coir
Warp & Weft	60:52/m
Mesh spacing	10 - 15 mm
Weight	700g/m2

### Standard roll dimensions

Width	2 m
Length	50 m
Area	100 m2
Diameter	36-38cm
Weight/roll	64-70 kg

### Loading capacity in 40'HC container

290rolls = 29,000m2
